## PROJECTS

### Portfolio Website

- Tools used:- HTML, CSS, JavaScript, React.
- I have developed and maintain a professional portfolio website to showcase my skills, experiences, and achievements. With a visually appealing and user-friendly interface, the website effectively highlights my expertise and accomplishments.

### Foodito

- Tools used:- HTML, CSS, Bootstrap, JavaScript, React, Node.js, Express.js, MongoDB
- I have developed a food ordering website that streamlined the process of ordering the food. The main aim of the project on online Food Ordering Application is to manage the details of Food Item, Category, Cart, customers.

### Google Keep Notes App Clone

- Tools used:- HTML, CSS, JavaScript.
- It is a clone of the Google Keep App using React. It can add and delete notes implemented using JSX and styled with CSS and Material UI.

### Vusic

- Tools used:- HTML, CSS, JavaScript.
- Designed and developed a visually captivating and user-friendly music website.
